AUSTRAL

SAISONS 3

The AUSTRAL is an outstanding awning for seasonal use. This 3 m deep awning provides unrivalled interior space. The ultra-breathable TRIGACRYL 280 canvas is perfect in warm weather and limits condensations. Experience comfort with the two side mosquito screens that can be closed with a transparent blind on the side of the caravan. You'll enjoy optimal brightness and ventilation throughout the day. The central vent with cover also contributes to your comfort. This awning provides the modularity you'll want for your camping holidays, with removable and interchangeable walls. The front is removable and splits into two sections. The linked frame poles and power grips make it easy to pitch.
