

SANTA CLARA

SAISONS – 3 –

The ideal awning for touring campers or for those who want something easy to use and prefer spending their holiday time relaxing rather than pitching an awning. In fact, the SANTA CLARA is the best choice if you're looking for quick and easy pitching. This standalone awning can remain pitched even if the campervan leaves the campsite. You will love the vast light this awning gets thanks to its 2.5 m large front window. This awning has a lightweight, robust and modern design.
