

AUTOMATIC FRAME
WITH "UMBRELLA" OPENING

TOURING

SAPPORO

Your travels are about to become a whole lot more comfortable and practical thanks to the SAPPORO awning. This innovative design has been specifically created to fit onto the rear of a vehicle. This awning's automatic opening system is a great added plus. This standalone awning can remain in place even if the campervan leaves its campsite pitch. You'll enjoy exceptional light thanks to the large clear windows with interior blinds. With a depth of 4 m, it is both spacious and comfortable. The dividing door between the porch and the living space means you can separate these areas however you like. This awning is both lightweight and robust. Its quick-pitching handles mean you can lock or unlock the frame instantly.
